## Board Game

Cut out and play the 'Train of Thought' board game! Print out the pages, carefully cut out and make the character counters and dice (unless you have your own) and stick or glue the two sides of the game board together.

## How to play

Choose a character. All players start on the 'START' spot. Take turns to roll the dice and move your character along the path. The winner is the player who reaches the 'FINISH' spot first!

### Think Back!

Move back the number of places indicated.

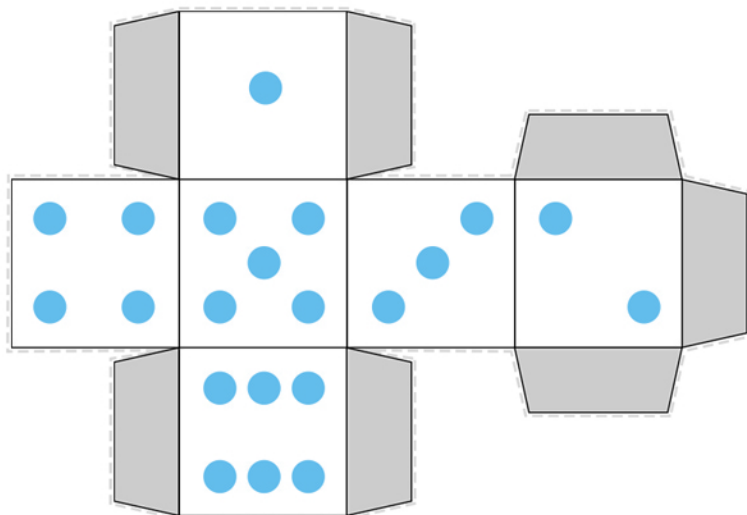

### Roll Again

You get to have another go!

### Abstract Thought

Pick an Abstract Thought card. Some are good, some are bad, some are just plain weird!

Cut out and fold into a cube, using the tabs to stick the edges together
